destiny to Western Imperialists. Oil income, and \$1 billion given Iran by US, have been embezzled by US advisors, thousands of foreign companies, and by Iranian lackeys of Imperialists. Now Mr Amini has asked US Amb Holmes for \$400 million loan and West German Amb for DM 200 million credit; but if \$1 million brought bankruptcy, new loans will not cure the people's ills.

NVI continued usual call for destruction "Coup Regime," return of Mosadeq's "legal" govt. Demanded dismissal of Ardeshir Zahedi as Iranian Amb to U.S. Said he has long record of "disgraces" extending from childhood; has been incompetent Amb, but because of being U.S. spy and son-in-law of Shah may become PrMin in future. His latest action is cancellation passports of Iranian students in U.S., whose only fault was freedom of thought. (UNCLASSIFIED)

JUL 61

A. Internal: 1. Govt suppresses national front demonstration: FN plans for mass meeting July 21 disrupted by vigorous Govt action. Tehran police placed on double strength; Gendarmes, military police, infantry, armor, and paratroop units also deployed in case of need. Top NF leadership arrested evening July 20, following police break up of ceremony at graves of those killed Preyskd Mosadeq's restoration in 1952 as PrMin. Following day effective, well-disciplined police units dispersed numerous small groups attempting converge on Jalalieh Stadium. Many clashes occurred but no deaths or serious injuries reported. Total of approximately 400-500 arrested, many of whom freed immediately, all but very few of remainder reportedly to be released in near future. Amini delivered nationwide radio speech July 24 justifying govt's strong measures as legitimate restriction of freedom and castigating NF for being witting or unwitting tool of Tudeh. (CONFIDENTIAL)

Comment: Govt's severe security precautions, while effectively frustrating NF plans, led to charges of unnecessary repression and to innuendoes that PrMin had caed* in to Shah. Amini himself, however, in conversation with our Amb was jubilant over what he considered successful outcome of action against NF, which he said he had conceived and persuaded Shah to accept. (CONFIDENTIAL)

2. Govt changes views on land reform: PrMin delivered speech July 19 before group of Iranian landlords which substantially modified Govt's previous position on land reform. Amini stressed importance land reform carried out by landlords themselves as distinct from Govt spokesman Arsanjani's emphasis land distribution and replacement of landlords with agricultural cooperatives. Comment: Whereas Arsanjani has only his political reputation to think about, Amini must worry about Govt's solvency and is under pressure to expand internal revenues from agriculture rather than let them shrink under disrupting influence land reform. (CONFIDENTIAL)

B. External

1. Iran-USSR: Amini told our Amb July 25 that from evidence at hand there no doubt Communists both inside and outside Iran were involved in NF demonstration. Said strong note of protest re unfriendly Soviet broadcasting to Iran would be delivered to Sov Amb Pegov July 26. FonMin had previously called Pegov to deliver oral protest, noting particularly that Sov Mil Att Kouzmenko and other members Sov Emb were reportedly seen and photographed moving among demonstrators July 21. Widely reported in press that Goh would declare Kouzmenko Png. FonMin, however, told Emb that while Govt had seriously contemplated such action, strong enough case could not be made. (CONFIDENTIAL)

A. Press

1. Berlin: Though still front page story, little comment. Post Tehran noted crux of Soviet worry is that if Soviet Forces withdraw from E. Germany, regime would soon fall, probably followed by Poland. Peyqam Emruz hoped young U.S. leader would abide by peaceful principles and make no imprudent decisions. (UNCLASSIFIED)

2. July 21 demonstrations: Voluminous comment, sighs of relief. Few papers noted role of security forces in preventing meeting; most praised Iranian public for "mature restraint" and awareness foreign intriguing. Great outraged cry against Soviet interference, most citing Moscow radio, NVI as proof. Etelaat said failure July 21 demonstration proved Khrushchev statement to Lippman on coming Iranian revolt was wrong; demanded Govt protest to UN re Soviet interference. Jahan, aggrieved at police beatings of youths, condemned Govt approach, saying unnecessary amount military force used; said clashes between police and populace precisely what "aliens" want. Eradeye Azarbaijan also thought Govt precautions much ado about nothing, succeed only exaggerate public conception of power govt opponents. (UNCLASSIFIED).

Comment: Virtual unanimous support of Govt reminiscent of controlled press under Eqbal, suggests papers took seriously Amini warning press freedom dependent on DA IN 135727 (29 JUL 61)

restraint. Kayhan tactically admitted this, saying it willing risk suppress on if cause great enough, otherwise preferred stay in business. (OUO)

3. Amini: Most papers continue support for Amini, though often qualified. Several note obstacles to success posed by conservative, power-holding elite, with some references hazily phrased so that they could include Royal Family. (UNCLASS)

B. Radio

1. Radio Moscow/NVI: RM said July 21 incidents show ever-increasing gap between ruling authorities and people. Govt arrested hundreds, sent tanks to Jalalieh, all of which indicates weakness, not power. Americans are main supporters of traitorous, anti-national regime of Iran, which now destroying remaining freedoms; Aramesh, arrested without trial by Amini for advocating neutralism, described US imperialist tactics as "make bankrupt, grant loans, and rule," a phrase now quoted everywhere. Unlike Tunisian Govt, which following people's wishes in resisting France, Amini Govt fighting Iranian people, defending foreign imperialists. Morrison-Knudsen Co, despite failure in Afghanistan, bribed Iranian officials to award it contract; no wonder Amini confesses that corruption wastes much of budget. NVI on eve of July 21 demonstration urged Army officers, soldiers to disobey orders of Shah and Amini to "open fire on your brothers and sisters" who planned demonstration "to strengthen independence" Iran; contended Amini Govt received no vote of confidence from any lawful authority, he and Shah follow orders from US, British Embassies. Following day claimed demonstration successful although said several peaceful demonstrators killed, over 100 beaten, arrested; since this partial gathering of Nationalists was able resist most of available "coup regime" forces, if Nationalists unite, they will win. Attached Amini speech of July 24 (see item I.A.1) as attempt to alter meaning of "freedom" to accommodate Govt; said Amini, on instructions US, British Embassies, mouthed 100-year old imperialist theory that freedom not good for backward countries. Amini just like Egbal, other "coup regime" premiers, except hides self in Demagogue's clothing. But on July 21 Amini removed vest, showed that Shah need not hide "the snake named Bakhtiar" up his sleeve, for Amini did all that Bakhtiar could have done. (UNCLASSIFIED)

July 27 at Tehran University against arrest of NF leaders,
later sent delegation to PriMin to protest his "repressive"

"define limits of freedom," article to many confirmed radical
shift from early revolutionary days of Amini Govt to period
of greater repression and control. Also considerable indig-

necessary to achieve internal stability, at which PriMin
presumably looked inscrutable. Amini's political critics
have, however, muddled the issue and demanded that he

2. Radio Moscow/NVI: RM still attacking Amini Govt said it now customary for any new govt in Iran to promise reforms, then forget promises. Big landowner Amini like the others; treasury still as empty as when he took office, peasant farmers in revolt as they realize Amini really supports landlords, while thieves continue corruption following Amini arrest of few second-class embezzlers. And although Iranian people demand neutralist foreign policy, Amini Govt, Shah and Entourage listen not to people but to the dollar.

NVI continued blasts at CENTO, bi-lateral military agreement; continued deplore govt interference at July 21 demonstrations. Commemorated anniversary of death of Reza Shah by discussing he "murderous" police, saying he changed govt system into organization of thieves. Made lengthy reply to Iran Govt attack on foreign broadcasts, scoffing at claims that NVI located outside Iran and foreign broadcasts provoke people's struggles from abroad. Said actually foreigners' servants are Shah (who came to power by hand of Schwartzopf and Henderson) and Amini, who received \$5 million bribe to sell Iran; said people lead own struggles, as when they installed Mosadeq and nationalized oil industry, at time when there were no so-called foreign broadcasts. came stronger and better organized during past week. In
"congratulatory" Constitution Day telegram to Shah, former
Majlis Spejead Hekmat and Tabatabai joined with Tehran
religious leader Behbehani in urging new elections and re-
minding Shah that Constitution may not be suspended in whole
or part. Joined following day by Pres of dissolved Senate
Sadr who quoted in Kayhan as saying "Democracy has no meaning
without parliament."

Shah and PriMin in nationally broadcast speeches Aug
5 both stressed limitations on freedom and need for disci-
pline. Said that despite defects of present law, Majlis
elections will be held under conditions ensuring their fair-
ness. (U)

have been under heavy pressure from commercial community to relax stabilization policies. Changes, however, may not present significant alteration credit policies: Pur-Homayun, although long an advocate in cabinet of relaxation credit restraints, has since new appointment given IMF representative resounding statement in support new stabilization program; PriMin has assured Reza Moqadam, dep gov Central Bank, that move, despite appearances, was not a sellout to Bazaar setting stage for inflationary expansion bank credit, persuaded Moqadam to withdraw resignation and stay on to police stabilization. Pur-Homayun and Amini will, however, quickly come under bazaar attack if they do not provide credit facilities expected by merchants.

3. IMF drawing rights restored: IMF Board accepted new G01 stabilization proposal (WEEKA 27), restored Iran's drawing rights under standby credit. \$20 million remains to be drawn, of which \$7.5 million may be drawn before Sep 21, remainder in monthly drawings \$2.5 million, total to be drawn before Mar 21, 62. (U)

Comment: No immediate plans for drawing because exchange reserves now high following Jul 15 payment (WEEKA 29) recent US emergency financing assistance (WEEKA 24). Shortages, however may develop before next oil payment, Oct 15. Iran's performance on stabilization program, and hence ability to draw full standby credit, will depend on what means are found to handle large prospective budget deficit. (WEEKA 31). (OFLUSE)

3. Amini Govt: Though most comment still tolerant, clamor for action increasing. Several papers critical of Amini's implication only limited democracy possible in Iran. Kayan branded as nonsense Amini's Constitution Day (Aug 5) statement that 55 years was too short a period for democracy to have grown in Iran; said that "With dedicated and determined leadership it is possible to raise country from misery to.... prosperity in much less than 55 years." (U)

4. Iran-Soviet relations: Only three small papers editorialized on Soviet firing on Iranian plane. A few still belaboring radio Mosco for interference Iranian Internal affairs. Post Tehran averred RM Commentators should attend own affairs first, cited statistics "proving" standard of living of Soviet worker is far below that in Iran. (U)

Comment: Year ago papers frequently printed derogatory materials on life in USSR: Only in last two weeks have a very few direct attacks been noted again. (U)

B. Radio

1. Radio-Iran: Pro-West trend continued, with one newspaper commenting it had reached point "That radio announced unimportant US news before important events elsewhere". Reportage on Soviet spacemen was cold, unimpressed, quoted western sources which doubted Titov controlled ship; cited NYT as noting Soviet govt spending billions on space, armaments research, rather than on raising still low living standards. (U)

2. Radio Moscow/NVI: RM emphasized Khrushchev's TV speech on Berlin, Soviet astronaut, new 20-year plan. Iranian coverage returned to theme that popular unrest, economic crisis owing ruling class's contravening people's wishes by continuing allow foreign monopolists control economy, permit foreign-made goods close down home industries, participate in militaristic agreements with West.

NVI extensively discussed Constitution and Constitution Day tracing history of people's struggles against despotic Shahs and their Tsarist and British allies; called on people to emulate forefathers, rise in armed revolution against Shah, whose brutality, infringement of Constitution have "outdone infamous Mohamad Li Mirza a hundred times."

PrMin Amini, for exploiting oil workers. Long overdue daily wage increase held to 125 rials, instead of equitable wage 250-300 rials; in Kuwait workers get 300 rials, while American workers get 600. (U)

1. Soviet attack on Iranair DC-4: Iranair cargo DC-4, lost in weather on flight Beirut-Tehran Aug 4, was fired upon and damaged by unseen fighter acft, presumably Soviet. American civilian pilot and Iranian crew crash-landed on Iran Caspian Coast without injury, but with major damage to craft. Iranair and DGCA investigating. (C)

Comments: USAIRA investigation indicates no deliberate Soviet action to lure acft into USSR, straying off course apparently result of poor navigation and radio-aid reception. Iranair's cargo schedule to Europe will be crippled until additional acft is obtained thru lease or purchase. Iranair hopes for GOI protest to Moscow, but seriously doubts such protest will be forthcoming. (CONFIDENTIAL).

1. 28th Mordad anniversary demonstration: Govt plans now well underway for mass demonstrations August 19 to celebrate anniversary overthrow Mosadeq. PriMin told Amb he plans make demonstration expression of loyalty to monarchy in order counteract Soviet propaganda attacks against Shah. Shah, in view "thousands of messages urging him appear," has agreed attend celebration at Doshan Tepe Airfield east of Tehran. Press estimates turnout of over 300,000. Amini and Chief National Police have no fears on security grounds, although Chief Savak reportedly has reservations this score. Extensive security precautions have been made. Little indication so far any national front counter-move. (CONFIDENTIAL)

ternal dissident elements, its main purpose was probably to undermine Amini Govt by frightening off potential Western lenders. Saleh's implication that NF Govt would repudiate loans to Amini Govt is probably bluff since moderate NF leadership, if it ever assumed power, would have to ratify Amini debts in order maintain credit-worthiness outside Soviet Bloc. (CONF)

4. Aid developments: Incomplete reports from Iranian aid delegations in Washington and Bonn (Weeks 31) have encouraged G01 to believe adequate financing will be forthcoming to complete second plan. Washington delegation reported to G01 that US is supporting aid request to Germany, hopes provide firm indication US aid level after learning amount Germans prepared to give and after passage aid legislation Bonn Del's report indicates Germans prepared provide \$50 million on flexible terms. 1. Berlin: Top story of week with banner headlines, though comment scanty. Kayhan deduced that refugee situation proves Communism is bad system, that therefore we should not need worry since no people would bring oppressive system upon itself; if Communism has spread, it is fault of "so-called free world" itself; colonialists who sucked life blood of East are today unwilling let East be free, set up puppet govts with American assistance. Communism prospers not because it good but because oppressed peoples find no other way of escape. Peyqam Emruz complained US adding fuel to fire world wants quenched. Setareh Tehran contrasted peaceful co-existence talk with Soviet tanks Berlin; Farman predicted no war since Communists have already lost in Berlin. (UNCLASSIFIED)

Comment: Kayhan now probably largest circulation daily. Its tortuous reasoning above probably means: "Americans are driving Iran to Communism by supporting Shah and his puppets." (OFFICIAL USE ONLY)

2. Bowles visit: Peyqam Emruz said Bowles came East only to gain support for US Berlin policy, ignoring fact most people never heard of Berlin; really interested only their own hunger; but Bowles not interested common people. (UNCLAS)

Comment: This probably mostly pique. Feelings of some opinion leaders Tehran hurt by fact plane merely touched down for refueling, and Bowles declined press interviews. (OFFICIAL USE ONLY)

3. Titov orbital flight: Story continued receive publicity, followed by numerous feature stories with photos. Comment, however, very light. US-Bating Donysyase Jadid said it unrealistic not to admit US now three-four years behind USSR and what's more will stay there. (UNCLASSIFIED)

4. Amini Govt--Elections: Most papers commenting still inclined favor Amini, though much clamor for end to suspension of constitution through failure hold elections; line is that reasonably fair elections possible now, law can be amended by new Majlis. Jahan, however, in article which caused its suspension for three days, said Amini had not dared put finger on nub of problem which was simply that the list of deputies who would be permitted to be elected was drafted by govt and approved by Shah; faults of electoral law are secondary issue. Kayhan next day made same point without mentioning Shah. Khandaniha chided govt for ambiguous fence-sitting policy, saying if it is to be revolutionary, should push forward resolutely, as it impossible combine observance of law and revolutionary reforms. (UNCLAS)

B. Radio

1. Radio Moscow/NVI: RM renewed attacks on Amini, saying his just like other so-called "Imperial" govts, installed to protect only interests of ruling class which usurped power with Imperialists' help on 28th Mordad; in three months conditions here worsened, reforms not materialized, govt getting deeper involved in Western alliances, while police, gendarmerie, Savak expenses increasing. Aid Amini made numerous promises to US oil and military men in return for helping him become PrMin; now he fulfilling promises to detriment Iranian people. Unlike past weeks, no direct mention of Shah. (UNCLASSIFIED)

NVI continued call for bloody revolution "from below," overthrow of Pahlavi Court, the "center of Imperialist plots." Said Royal Court preparing celebrate 28th Mordad, when Imperialists overthrew Nationalist Govt, returned puppet Shah from Rome. But Pahlavi dynasty "treason" began long before, when Imperialists and oil companies made Reza Shah and son dictators in order conveniently concentrate power in hands of puppets; said Amini, too, has long worked for Imperialists. Criticized Amini's continued failure to conduct elections as promised; said Embassy, Shah, Amini, prefer there be no Majlis since even hand-picked 20th Majlis could not docilely stomach US rule of Iran. Also ridiculed MinAgriculture Arsanjani, suggested he resign now that promises proven empty; said it now popular to call anyone who blunders "an Arsanjani." (UNCLASSIFIED)

1. Shah's 28th Mordad Speech: Govt-sponsored demonstration August 19 celebrating 8th anniversary overthrow of Mosadeq was from Shah's standpoint major success. Around 200,000 people, mostly working class, enthusiastically cheered fiery speech of Shah, which attacked Communism, neutralism, and National Front. Shah visibly elated by reception. 2. Amini statement on economy: PriMin Amini devoted hour-long TV interview Aug 21 to econ topics, made following points:

(1) To alleviate unemployment, govt will lift taxes on small plots, help finance low-income housing projects, launch rural feeder road program;

(2) Budget deficit will continue so long as econ crisis at hand and customs revenues low;

(3) Stabilization program will be vigorously pursued, with hope pressure on foreign exchange will be eased in six months.

(4) Steel plant not feasible now, giant show-piece projects have been undoing many underdeveloped countries;

B. Radio

1. Berlin: Radio Iran commentator said Nehru hinted East German Berlin restrictions constitute kind of aggression, added Nehru reflected opinion of neutral countries. (UNCLASSIFIED).

2. Radio Moscow/NVI: RM said Tass's publication TOP-SECRET CENTO plans reveals "defensive" bloc's real purpose is preparation for atomic war against peaceful countries. Although State Dept denied knowledge of plans, U-2 incident shows worthlessness of such denials. Iranian nation aware Russia has no hostile intentions, but must understand Khrushchev's words that "any country used as platform of attack against Socialist countries must feel our crushing blow in its territory." Iran can only protect its left by neutralist policy, like that of Indonesia, Afghanistan, Iraq, UAR, Austria, Finland.

NVI continued its history of Shah's "service to foreign imperialists," tracing events of Razmara, ALA govts prior to accession Mosadeq. Said US oilmen at first favored oil nationalization in order oust rival British, but realized Mosadeq true nationalist; Dulles then joined Eden to reinstate their puppet Shah. 1. Arrest of Mehdi Daryani: Supreme Court, in first major anti-corruption move in nearly two months, on August 25 confirmed arrest of wealthy tea merchant Mehdi Daryani. While charge is misappropriation of 230 million rials of funds of Tehran housing project, govt reportedly will try to prove Daryani involved in extensive irregularities in state-owned tea monopoly. (CONF)

Comment: Arrest is widely believed to be connected with govt's cases against Generals Kia and Alavi-Moqadam, to whom Daryani is assumed to have paid large sums prior to his election to 20th Majlis. Embassy understands there is substantial favorable reaction in Tehran to govt's catching up with Daryani. (CONF)

2. Arsanjani press conference: At first press conference in several weeks govt spokesman Hasan Arsanjani took up question of Iran-Soviet relations, and while concurring with FonMin's denial of recent Tass charges against CENTO, managed to muddy issue of prior Iranian negotiations with USSR. Said that while Soviets must not expect Iran to break faith with west, Iran has had in past agreed not to permit foreign bases on its soil, and present govt would undertake such commitment in writing. (CONF)

Comment: Arsanjani's habit of off-the-cuff interpretation of delicate policy matters may seriously embarrass govt; e.g. he neglected to mention that previous govt's offer was limited to missile bases, not foreign bases of any sort. (SECRET)

core financing gap second plan about \$25 million even with German financing assistance (See item 1, A, 4).

4. German aid agreement: Protocol signed Bonn Aug 16 provides West German financing assistance DM 200 million (\$50 million) for Iranian investment projects, of which DM 50 million for Sefid Rud Dam, DM 95 million for related irrigation network, and DM 55 million for current NIOC projects. Fed rep also prepared guarantee credits up to DM 350 million for supplies, services German firms participating in German-American consortium to construct major pipelines and Tehran refinery. (CONF)

Comment: Assistance substantial in volume, but complicated terms raise considerable problems. Plan org estimates that, owing work schedule, not more than \$18-\$20 million Sefid Rud Dam and network money can be used before Sept 1962 and thus be applied to financing gap second plan. Financing current NIOC projects made contingent on award pipeline, refinery projects to above mentioned consortium; also would require Iran make equivalent amount available as down payments those longer-range projects. Thus financing gap NIOC capital program this year remains unfilled, will probably add to govt deficit. (CONFIDENTIAL)

1. TUDEH ACTIVITIES: 35 IRANIAN ARMY NCO'S AND CIVILIAN PERSONNEL RECENTLY PICKED UP AND INTERROGATED FOR ALLEGED POLITICAL ACTIONS AGAINST THE STATE WHICH INCLUDE BOTH TUDEH AND NATIONALIST ACTIVITIES. 26 OF THESE PERSONS CAME FROM GROUPS OR "CELLS" IN ORDNANCE AND TRANSPORTATION DEPARTMENT, ENGLISH LANGUAGE SCHOOL AND IRANIAN AIR FORCE. INTERROGATIONS HAVE REVEALED 10-12 ADDITIONAL NAMES INCLUDING TWO OFFICERS. (SECRET)

COMMENT: BASED UPON INFORMATION OBTAINED ON RECENT FIELD TRIPS TO NORTHERN PROVINCES, ARMA STRONGLY SUSPECTS TUDEH ACTIVITIES MUCH MORE WIDESPREAD THAN IRANIAN INTELLIGENCE SOURCES PREPARED ADMIT. MANY COMMANDERS INDICATE THEY FEEL GOVT SPONSORED PARAMILITARY NATIONAL RESISTANCE ORGANIZATION IS PENETRATED BY TUDEH. THEY DENY TUDEH PENETRATION IN ARMY BUT ADMIT TUDEH ORGANIZATION IN INDUSTRIAL PLANTS, COAL MINES AND SIMILAR ACTIVITIES LOCATED IN THEIR AREAS. ARMA CONCLUDES THAT IF TUDEH ACTIVITIES ARE CAUSE OF CONCERN TO COMMANDERS, THERE CERTAINLY MUST BE MORE PENETRATION IN ARMY THAN THEY WILL ADMIT SINCE SOLDIERS RECRUITED FROM LOCAL AREAS MUST HAVE BEEN SUBJECT TO TUDEH INFLUENCE IN PREVIOUS EMPLOMENT.
